

## GREAT TEW PRIMARY SCHOOL

Leona Webster-Edge, Parent Governor

Our time as a family began at Great Tew School in 2015. I currently have two children at the school and in September 2021 I will have three children covering both key stages. Having taken part in fundraising and being passionate about our school it felt right in 2021 to apply to be a parent governor - albeit in challenging times.

Originally having a career in solid organ transplant pharmacy at Addenbrookes Hospital - until starting a family - I've worked in large multidisciplinary teams and formed strong bonds with all of my patients from every of avenue of life.

After incredibly testing times for all of our children, I am dedicated to their education and experience at our school and very importantly their mental health. I believe very strongly in 'making magical memories' for our children, as after all it's our memories that make us.
